# Heating business division – market segments and products

SIT operates significantly in the following market segments:

- **Central Heating**, boilers for domestic and water heating
- **Direct Heating**, gas stoves and fireplaces for room heating
- **Storage Water Heating** for domestic hot water
- **Catering**, professional and collective gas cooking appliances

Current product families include:

- **Mechanical controls**, multifunctional safety valves for gas
- **Electronic controls**, mainboards for gas control and regulation; devices for remote control and user interface and displays
- **Fans**, applications for heating and cooking devices
- **Integrated systems**, pre tested and assembled modules for condensing gas boilers
- **Flues exhaust kits**, for domestic boilers

*Note: Since at the moment there is no existing reliable market research which provide the required level of detail, nor any official data, the statements of key information, the assessments concerning the positioning of SIT Group and the assessments regarding the market and the market segments of the reference market are based exclusively on assessments carried out by SIT's management, in accordance to its own knowledge of the market and its analysis of the data gathered. For such reason, these statements and assessments may not be updated and/or may also be quite approximate. Due to the lack of reliable and standardized data and of market data provided by third parties, these assessments are necessarily subjective and are provided, unless otherwise specified, by SIT on the basis of the analysis of the data it, as a company, has gathered. These evaluations and the performance of the industries in which SIT operates could prove to be different from those assumed due to the known and unknown risks, the uncertainties and other causes.*

## Attractive business opportunity

- The mission of MeterSIT, wholly owned subsidiary, is to offer to gas distribution companies a new generation of highly innovative, electronic, remotely controlled smart gas meters
- The business opportunity arises from the Italian directive ARG/gas155/08 issued by the relevant Authority (AEEG) and from the European directive on smart gas metering (EU 2009/73)
- The **attractiveness** of the business opportunity for SIT is based on:
  - Product designed on innovative micro thermal-flow sensor technology that measures standard cubic meters of consumption without any need of compensation devices
  - Competitors based on standard technology (volumetric)
  - Italy as the first market for massive roll out of residential smart gas meters
  - Growth in foreign markets

### RESIDENTIAL SMART GAS METERS

(from 4 to 10 m<sup>3</sup>ph flow)

### COMMERCIAL & INDUSTRIAL SMART GAS METERS

(from 16 to 40 m<sup>3</sup>ph flow)

# Smart Gas Metering – market size provides growth potential

*European Gas Meter installation base is over 120 million units*

Source: Berg Insight (M2M Research Series 2016 - Smart Metering in Europe)

To current date main European countries are in different stages of massive residential meters roll-out plans

- **UK:** regulatory framework (SMET2) requires to complete replacement of 100% of existing meters by 2020. Roll out recently shifted to July 2018, allowing to install SMET1 meters up to this date.
- **Italy:** ARG/GAS/554/15 issued in Nov 2015 requires substitution of 60% of total meters by 2019. Currently (2017E) substitution or assigned is 35% of the installed base.
- **Germany:** former cost/benefit analysis had a negative outcome and roll out plan is currently on hold; cost/benefit analysis update is expected
- **France:** cost/benefit analysis had a positive outcome and first wave of roll out plan is defined. Second wave is expected in 2019
- **Spain:** former cost/benefit analysis had a negative outcome; cost/benefit analysis update is expected
- **Netherlands:** regulatory framework defined in 2013 and roll-out plan defined in 2014 and roll out in course

# Smart Gas Metering – trend in sales

- Sales evolution confirms growth potential

- Trend in Smart Gas Metering sales confirms consolidation of Italian Residential meter massive roll-out plan

- Order portfolio on 30.6.2017 is 31,1€ (+25%) of which 25,7€ with expected revenue in 2017FY
