

SITspa

SIT takes part in the HPB Expo from 24 to 26 June 2021

*In the virtual booth of the company will be presented the Proflame solution,
the brand dedicated to products for gas fireplaces*

Padova, 2021 June 23 – SIT, a technology company listed on the MTA market of the Italian Stock Exchange (SIT:IM) that creates smart solutions for controlling environmental conditions and measuring consumption, will be present **from 24 to 26 June 2021** at **Hpbexpo**, the largest indoor-outdoor event in North America, in virtual mode. Every year thousands of retailers and companies participate in the event to discover new trends and technologies related to the production and sale of fireplaces, patio heaters, wood / pellet / gas and electric stoves, accessories for barbecues, grills and garden furniture.

For the occasion, SIT will be able to meet customers and visitors in its **virtual booth**, which can only be accessed after registering for the event.

In order to better present the **Proflame solution**, a brand dedicated to **SIT** products for gas fireplaces developed and produced by the SIT group, a virtual showcase is available at the link proflame.sitgroup.it/eng

Proflame System products can also be used in appliances that burn a **mixture of natural gas with hydrogen** up to 30% by volume.

In the showcase you can see and know the characteristics of the SIT offer for fireplaces: gas valves, management electronics, diagnostic functions up to the **Proflame Connect Plus** APP that allows management via smart devices or voice assistant.
